MUCH WORK AHEAD Extra Session Among Leading Matters to Be Considered by the President.

AUGUSTA, Ga., March 18 .- President Taft played his last golf game of his spring vacation on the links of the Country Club to-day. To-morrow afteroon he will start back for Wachington. The President has thoroughly enjoyed his rest. He has done his best to forget that there is such a think in the world as work and has nearly succeeded There will be, in consequence, a heavy cumulation of official business awalt ing him in Washington, but he is in ood condition to attack this work. The President's message to the special tession of Congress to be convened on

April 4 will be brief if he follows his present inclination. Whether he will recommend that nothing be considered but the reciprocity agree-ment bill or whether he will indicate such a desire simply by confining himself to the subject of the agreement ennot be stated at this time. From the formal statements of the

Democratic leaders, however, the President has every reason to believe that revision of two or three of the schedules of the Payne-Aldrich act will be under There is said to be a possibility that

the President may call the proposes arbitration treaty with Great Britain in the attention of the special session, but the chances are that the pact will wait until the regular session next fall. FOUR BURNED TO DEATH
